[en] “*Huma* armchair is a project trying to preserve the classic philosophy of rattan production process while engaging in a research for greater comfort through the use of flexible ribs in its shell-shaped backrest and its upholstered seat. Later, multiple versions were born from this first design, including materials such as metal or beech wood. However, the result was the same in all cases: ultimate comfort and a modern look.”

huma

[en] Dining armchair providing different solutions for both the backrest and the legs. Backrest comes in natural rattan or steel tube covered with cold-cured moulded polyurethane foam and upholstery. Legs are made of rattan, wood or metal. All versions include upholstered seat. Possibility of customization through a wide variety of high performance technical fabrics. Finished with a three step water-based coating (dye, base coat and top coat) highly resistant to solar radiation thanks to UV filters. Structure made of peeled and tinted natural rattan of 28 mm/1.1" diameter. Backrest manufactured in peeled and tinted natural rattan of 10 mm/0.4" diameter.
