

Gradisca

Design: Werther Toffoloni, 2013

Cat. Chairs
Stools

Gradisca Frame:
Beechwood

Werther Toffoloni designed Gradisca on the occasion of the tribute dedicated to him by the Luigi Spazzapan contemporary art gallery in Gradisca d'Isonzo, commemorating his long career. It is a collection that summarizes the traditional values of the district, productivity and concreteness, through lively lines and new production techniques. Another example of how the "Made in Friuli" chair can be transformed into a universal object.
