

Link

design Studio Pastina

The sinewy lines and curves of the Link chair make it quite iconic. Various materials such as fine, open-pore ash wood, quality fabrics and metal, all bind together harmoniously to bring life to this original and contemporary design. Link is available: with seat and back in ash; with seat upholstered; or with both seat and back upholstered. These multiple combinations of fabrics and finishes give Link a feisty personality and allow it to enhance any setting whatsoever.
