NIX collection

Design by Patrick Norguet

EN Nix, an iconic design that combines the work of solid wood and the curved plywood 3D spherical geometry. The result is very comfortable and lends itself to both multiple uses of the house as to the collective spaces.

The principle of assembly draws an elegant and singular architecture.

The Nix collection is growing with the introduction of its stool version NIX STOOL.

A contemporary collection with different finishes and colors whose chair was the winner of the prestigious Red Dot Award, 2019.
