4-Trac[®]

Introducing our 4-Trac System, an economical, streamline and oh-so-powerful distribution solution that can snake through the most challenging workplace configurations. Pre-specified 4-Trac table kits are also available and make the system a piece of cake to add to existing product lines. Now, that's Flex...Able! 4-Trac works just about anywhere—but it works best when mounted under tables, built into troughs and installed in streamlined panels systems.
