

# ALLSIZE

Design Alberto Lievore

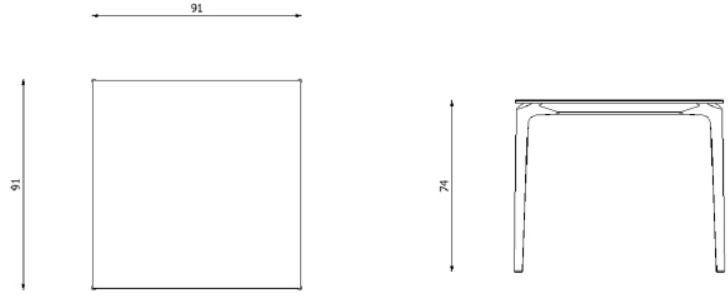

A collection of tables are characterized by customization. The entire AllSize collection is customizable, in terms of both height and the size of the top. AllSize's geometric and rigorous style is brought out by the table tops that feature porcelain-stoneware or a stone effect finish and rest on a painted aluminum base, creating an interesting contrast between materials. The legs, frame and supports are made from extruded aluminum. A standard version is also available, featuring a painted aluminum top.

The AllSize collection includes: standard and customizable dining tables.
