[en] “A tribute to the era of connectivity and hyperlink. Although it sounds like cutting-edge technology, *Link* carpets are a handmade piece of manufacturing that uses a combination of ropes of different sizes to create different levels and attractive reliefs. Made of a material completely suitable for outdoor use, *Link* provides an unpretentious touch of distinction.”

espiral rug
javier pastor + studio expormim, 2014

[en] “*Espiral*. A curve which emanates from a point, moving farther away as it revolves around the point. It is precisely the pattern dominating this simple round rug, made of polyester rope and hand sewn from the centre just like the spiral inspiring it. The material along with the spinning design helps create an attractive visual effect.”
