

# Jumbo

Ramón Esteve

<sup>EN</sup> Inspired by the legendary Chester sofa, Jumbo is based on a contemporary reinterpretation of this classic design of English origin. Considered a reference piece in London high society clubs in Victorian England, Jumbo is conceived as an element capable of adding character and roundness to any contract space. Designed by Ramón Esteve for Lebom, this sofa was born with the intention of becoming a meeting point in a pleasant and comfortable environment, like the lobby of an urban hotel.
