

PLUM collection

Design by Claesson Koivisto Rune

A Plum collection with elegant proportions, it has been carefully designed to be soft and welcoming. As if it were an embrace, the outline and rounded shapes that give the collection its character are not strictly mathematical, but a combination of curves that interlace and invite you to sit on them.

A collection of sofas that works in any space, whether in a hotel lobby or in the living room of a home; that is why a lot of attention has been devoted to sculpting the volume of each piece from all angles, even from the rear.

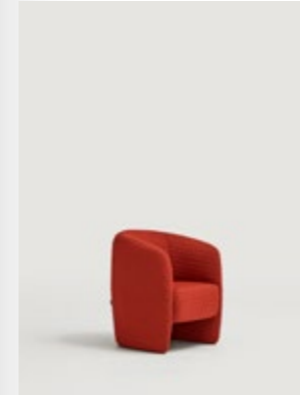

PLUM collection
