

XAIL

The collection

XAIL is a collection of chairs for lounge areas that are characterized by their comfort and a timeless design of essential elegance. A generous seat with soft and flowing shapes configures a welcoming place to rest and unwind.

XAIL seats are available with three upholstery options: soft, classic and with horizontal stitching. The structures are manufactured in two versions: rod sled or four leg in steel with oak or upholstered armrests. The seats and structures are available in a wide selection of finishes that allow multiple combinations, facilitating their integration in multiple lounge or waiting spaces.

— To fit with the style and architecture of each space, the seats are available with three upholstery options: soft, classic and with horizontal stitching.
