Technical specifications

Model	**Fluit ECO** · Multi-purpose chair · 4 plastic legs	
Reference		
Structure	Manufactured from post-consumer recycled polypropylene (PP) with 30% pre-consumer recycled glass fiber (sourced from industrial scrap, both recyclable), available in a wide range of colors. Gas-assisted injection technology, which makes it possible to generate volumes and and sections to obtain a plus in design. Anti-static treatment for easy cleaning. Stacking protectors included.	
Seat	Without **recycled polypropylene** (PP) padding. Optional textile-type textured PUR padding with a pleasant feel that provides greater resistance. resistance. Easy cleaning with soap and water.	
Arm type	Without arms	Closed arm without armrests
Supports	**Standard:** Non-slip rubber with non-slip felt included with each chair (not recommended for use with carpeting and/or outdoors).	
Stacking	The Fluit chair has the possibility of stacking up to 20 chairs without pad and 16 with pad on the stacking trolley and up to 6 chairs as standard.	
Dimensions according to UNE-EN 1335-1	**OVERALL DIMENSIONS** Height: 79,6 cm Width: 51,9 cm Depth: 53,6 cm **SEAT DIMENSIONS** Seat height without PAD: 43,4 cm Seat height with PAD: 45,3 cm Width: 37,1 cm Depth: 41,1 cm	**OVERALL DIMENSIONS** Height: 79,6 cm Width: 59,4 cm Depth: 53,6 cm **SEAT DIMENSIONS** Seat height without PAD: 43,4 cm Seat height with PAD: 45,3 cm Width: 37,1 cm Depth: 41,1 cm
		

It is a product composed of: fiber glass to provide greater robustness to the product, antioxidants to prevent the natural decomposition and chalking of the material, and stabilizers to increase its useful life. Due to this, the Fluit chair can present small bursts of color on the surface, which are not simply perceived, and which are below the tolerance threshold established by the European standard.

How to code a reference correctly

1. At the beginning of the coding and price tables of our price list, you will find the available models and their prices, as well as the basic reference of the product.

2. The system is designed to code vertically, adding desired components to the product by selecting the reference digits. Creating a correlation that will form the final order reference.

3. The finishes of arms, bases, optional complements, supports and upholstery will be shown in different colors so that the location of their reference and price is intuitive.

4. At the end of each table we will have legends or informative notes about the product being offered. Please read carefully to avoid confusion or mistakes when ordering.

5. This catalog has an interactive menu that will facilitate the user's navigation. It is located at the bottom of each page and from it you can go to the index, go back or even navigate within the family and the product displayed.

Example of reference configuration for an order
