Castors · Suggested finishes combination

Optional safety castors, with self-braking system, which prevent the chair from unintentionally rolling away. Available in different finishes. The safety brake according to standard EN 12529 for office chairs requires that when the chair is unloaded, i.e. before the user sits down, the castors are slightly braked and do not give the chair the possibility of sliding when the user sits down. It includes an easy system to reduce and/or deactivate the braking force, and is mainly considered as an aesthetic option.

Actiu recommends following the following combinations of structure and castors finishes.

White structure

Black structure

Ivory structure

Terracotta structure

Sage green structure

Bronze structure

Copper structure

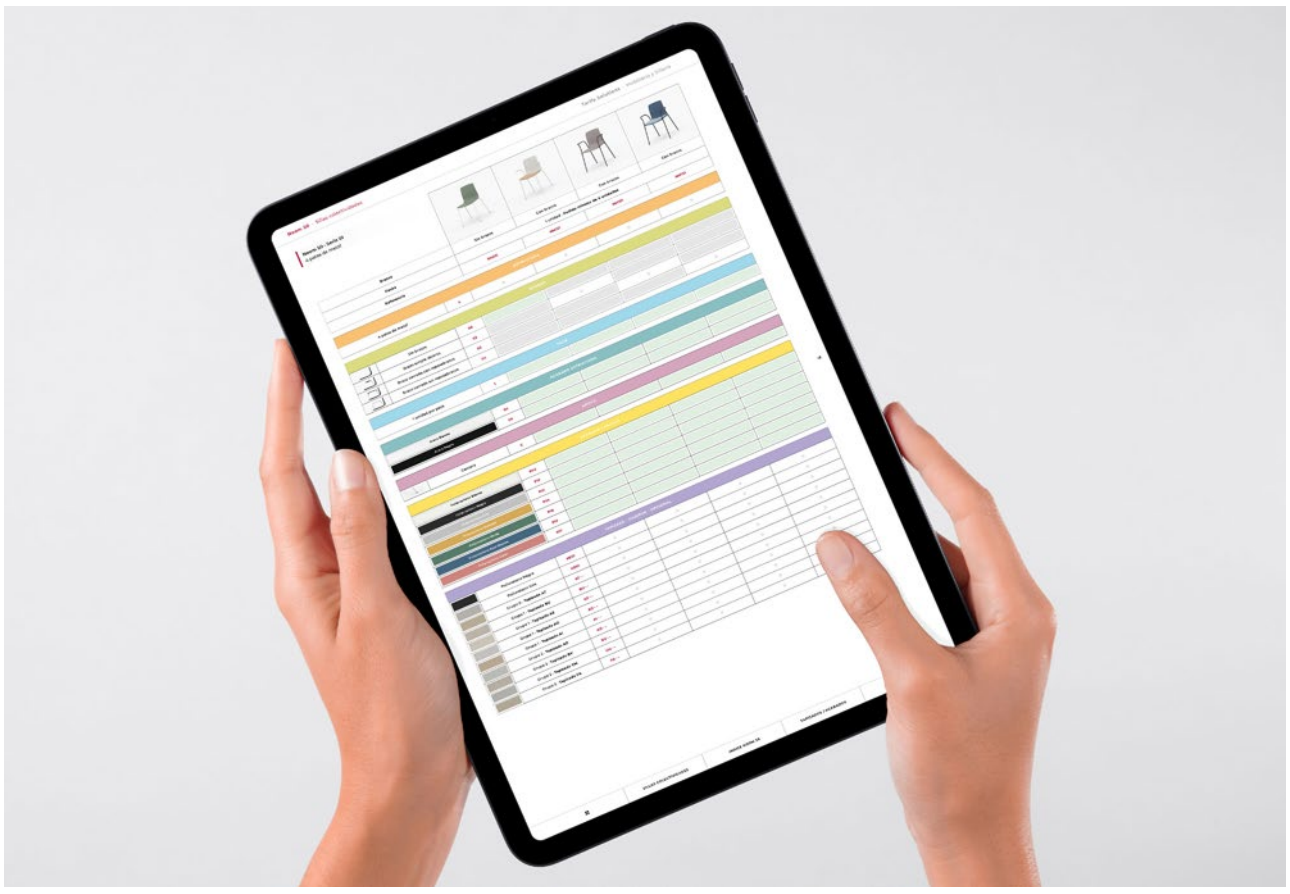

Titanium structure

How to code a reference correctly

1. At the beginning of the coding and price tables of our price list, you will find the available models and their prices, as well as the basic reference of the product.

2. The system is designed to code vertically, adding desired components to the product by selecting the reference digits. Creating a correlation that will form the final order reference.

3. The finishes of arms, bases, optional complements, SUPPORT TYPE and upholstery will be shown in different colors so that the location of their reference and price is intuitive.

4. At the end of each table we will have legends or informative notes about the product being offered. Please read carefully to avoid confusion or mistakes when ordering.

5. This catalog has an interactive menu that will facilitate the user's navigation. It is located at the bottom of each page and from it you can go to the index, go back or even navigate within the family and the product displayed.

Example of reference configuration for an order

Noom 50 · Multi-purpose chair	NU11
Ranges · Plastic shell	B
Frame · 4 metal legs	01
ARM TYPE	↓
Without arms	00
PACK	↓
1 unit	1
STRUCTURE FINISH	↓
Black	08
SUPPORT TYPE	↓
Glides with felt	C
SHELL FINISH	↓
Mustard Plastic	P24
FINAL CONFIGURATION REFERENCE	
NU1 1 B 01 00 1 08 C P24	

** The final cost of the module will be obtained starting from the established base price and adding to it the cost of the different complements that are added to it.*

	Configuration required to set up reference. **No cost increase.**		Combination not available		Removed after stocks are exhausted
