Technical specifications

Model	Tábula Tar 10
Reference	
Top surface	Surface offered in different finishes: - MFC: Chipboard with melamine surface in different finishes with a thickness of 25 mm. COMPACT: 10 mm thick compact board made of wood fibres. Black core covered with white or decorated high pressure laminate and bevelled edge.
Structure	Central column of aluminum extrusion with a diameter of 60 mm and a thickness of 2 mm.
Base	Round 6 mm thick steel base with a Ø48.5 cm diameter, featuring an epoxy-coated aluminized finish for comfortable use.
Support	**Glides without felt** End cap made of non-slip polypropylene (PP).

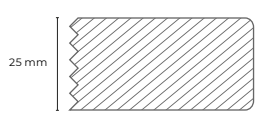

Finishes available

Desk-top

MFC · Thickness: 25 mm with straight edge

MDF

White | Coco Grey | Lime Oak | Light Oak | Chestnut | Dark Oak | Black anti-fingerprint

Compact Laminate · Thickness: 10 mm with bevelled edge

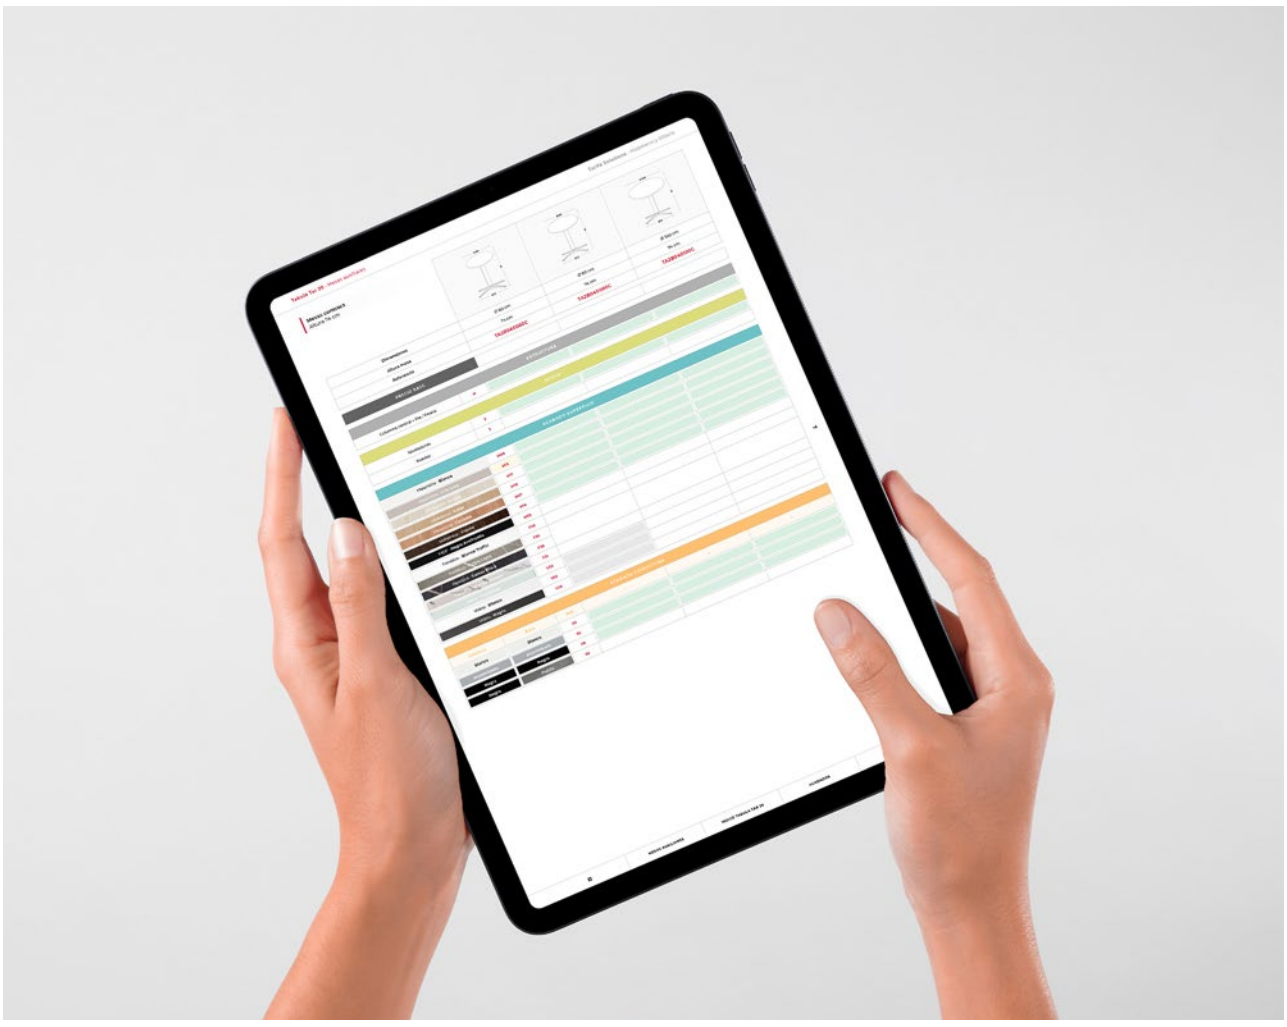

Black core	Coloured core	Coloured core with textured surface
Traffic White	Marmo Olimpo	Pulpis Light	Samas Black	Luserna Grit

STRUCTURE

White | Silver | Black | Ivory | Terracotta | Sage Green

How to code a reference correctly

1. At the beginning of the coding and price tables of our price list, you will find the available models and their prices, as well as the basic reference of the product.

2. The system is designed to code vertically, adding desired components to the product by selecting the reference digits. Creating a correlation that will form the final order reference.

3. The finishes of arms, bases, optional complements, supports and upholstery will be shown in different colors so that the location of their reference and price is intuitive.

4. At the end of each table we will have legends or informative notes about the product being offered. Please read carefully to avoid confusion or mistakes when ordering.

5. This catalog has an interactive menu that will facilitate the user's navigation. It is located at the bottom of each page and from it you can go to the index, go back or even navigate within the family and the product displayed.

Functions

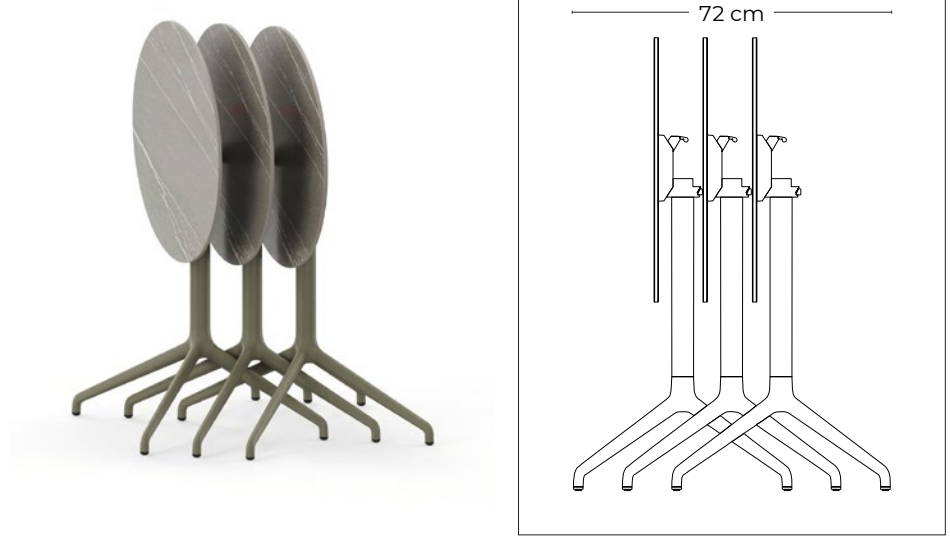

The Tabula Tar 40 table has been designed to optimize efficiency and space management in the contract environment. Its key functionality lies in a mechanism that allows the surface to be folded down intuitively and simply.

This smart folding system offers the crucial advantage of easily stacking the tables, achieving significant space saving when they are not in use. Tabula Tar 40 turns room reconfiguration or space management into an agile process, ensuring the area can quickly adapt to any need with maximum efficiency.

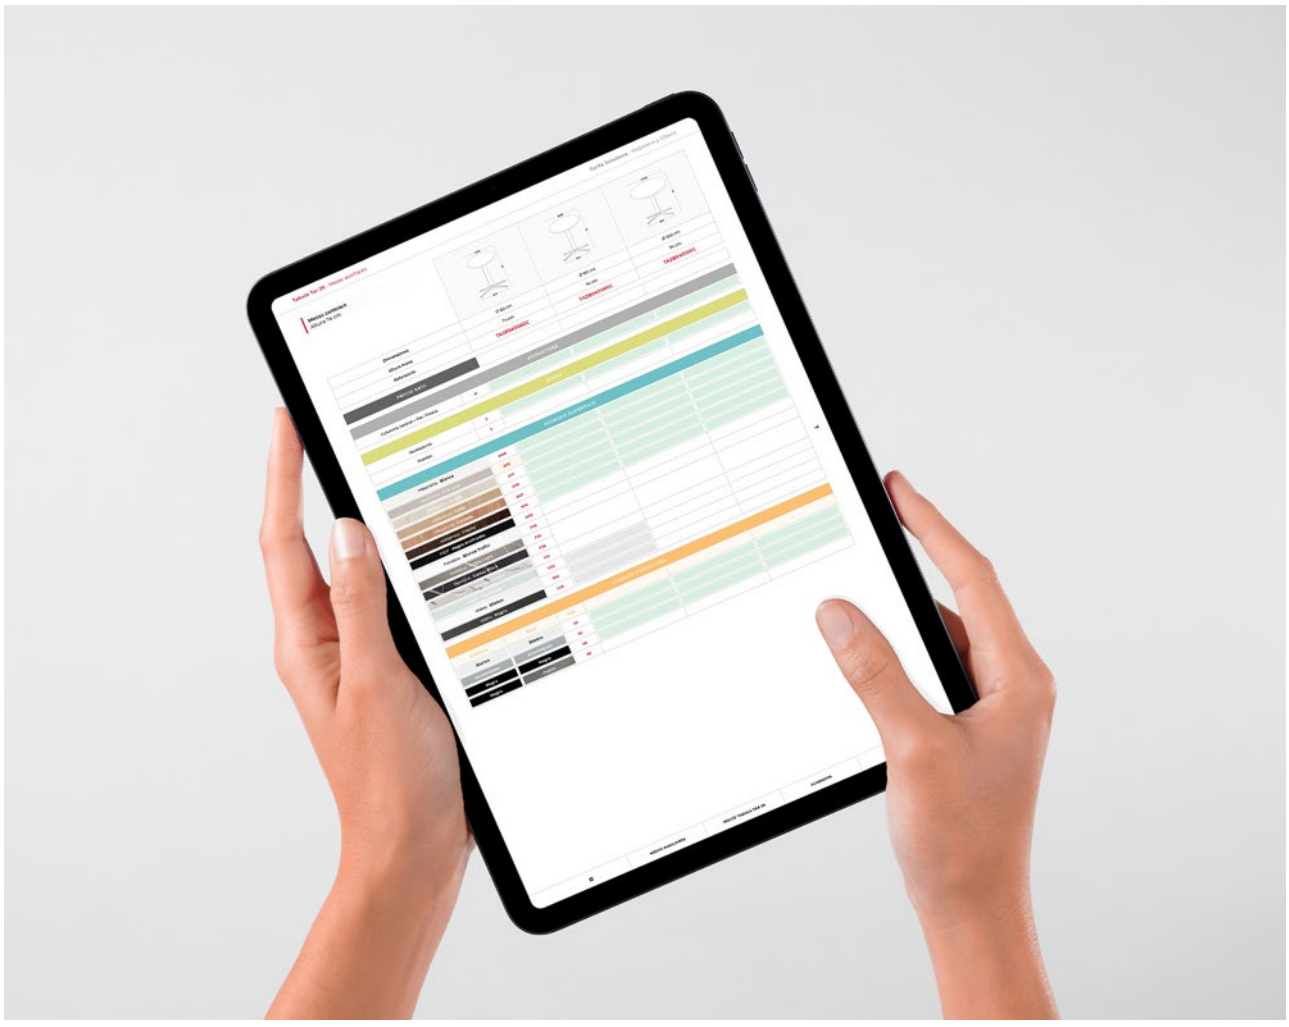

Foldable

Stackable

How to code a reference correctly

1. At the beginning of the coding and price tables of our price list, you will find the available models and their prices, as well as the basic reference of the product.

2. The system is designed to code vertically, adding desired components to the product by selecting the reference digits. Creating a correlation that will form the final order reference.

3. The finishes of arms, bases, optional complements, supports and upholstery will be shown in different colors so that the location of their reference and price is intuitive.

4. At the end of each table we will have legends or informative notes about the product being offered. Please read carefully to avoid confusion or mistakes when ordering.

5. This catalog has an interactive menu that will facilitate the user's navigation. It is located at the bottom of each page and from it you can go to the index, go back or even navigate within the family and the product displayed.
